FENCE PICKETS

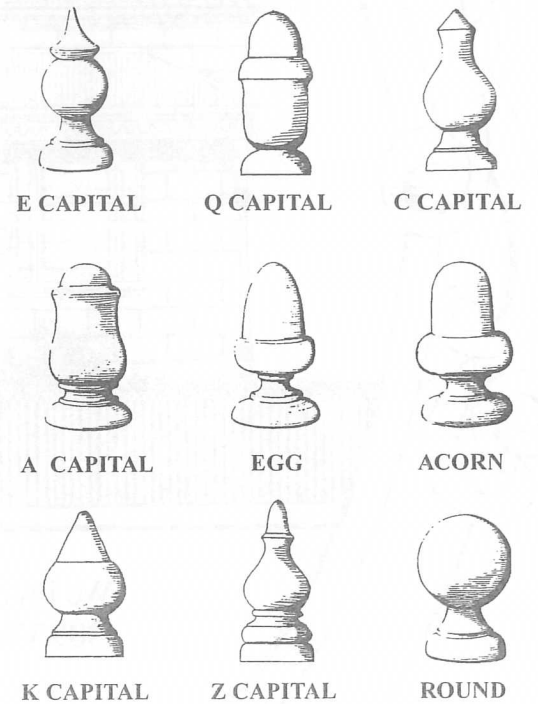

An extensive range of authentic period style picket designs are available in lengths from 0.900 to 2.100 metres in selected timbers. We can also reproduce any new or old style to sample.

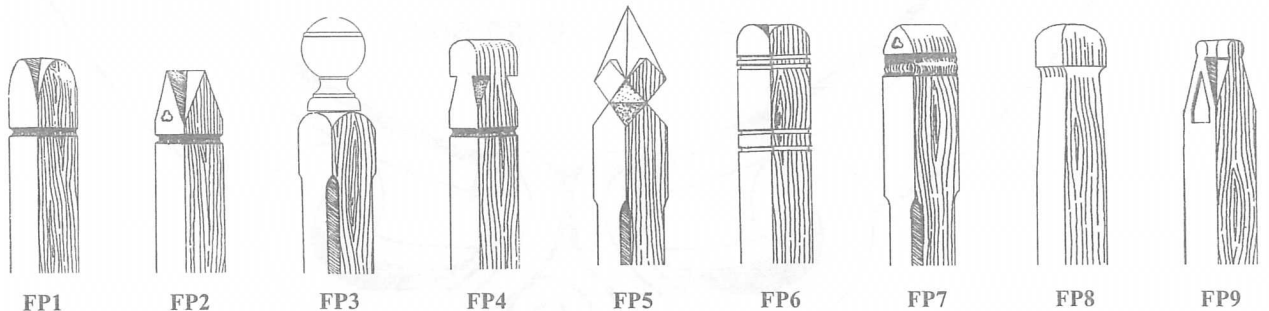

CAST IRON

TURNUED CAPITALS

Perry Bird Pickets manufacture hand turned fence post capitals in selected timbers to suit post sizes from 100mm to 250mm. We have 9 styles readily available, however we can turn any design imaginable simply by producing a sample, photo or drawing. The above capitals can be turned directly onto the post itself as one unit to ensure durability and longevity. Perry Bird Pickets also manufacture cast iron fence post capitals in 5 styles ranging between Victorian and Edwardian periods. These capitals are available from 125mm to 250mm.

One of the main features of a fence are the posts that form its foundation. At Perry Bird Pickets we have a vast selection of stylish feature posts, varying from the ornate to the more simple shaped posts. Complete your fence by selecting a post to add character and to give your fence a unique finishing touch.

FEATURE GATES

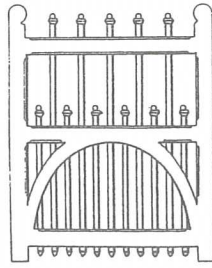

Perry Bird Pickets have been manufacturing traditional period style gates made from durable timbers to foresee generations to come. Perry Bird Pickets manufacture authentic pedestrian and driveway gates to suit Victorian, Edwardian and Federation homes. All gates are handcrafted and constructed using mortice and tenon joinery to ensure optimum quality and durability. Our gates are designed to enhance your fence and your home. Perry Bird Pickets began manufacturing gates over 18 years ago and until this day our quality has remained unsurpassed.

LETTERBOXES

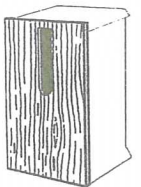

Perry Bird Pickets offer a range of period style letterboxes manufactured in western red cedar, available with or without brass fittings. Perry Bird Pickets created the letterboxes shown right and paved the way for other manufacturers. Pictured right are three standard letterboxes, however we can alter and modify all letterboxes upon request.

CAST IRON FENCES

Cast iron fences can be set into a traditional bluestone base or rendered concrete. Alternatively if this overwhelming fence is somewhat elaborate for your home a cast iron fence erected within a timber frame is also available. Such simplicity will enhance your home just as effectively.

CAST IRON SPEARS

The cast iron spears below have all been reproduced from original patterns.

CAST IRON POSTS

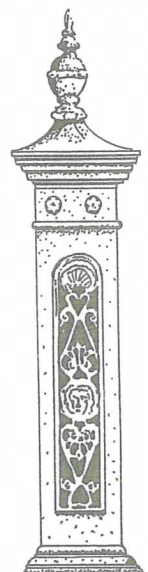

The most prestigious fence of all is certainly the authentic Victorian cast iron fence with many original style spear patterns available and three original cast iron columns. These include the majestic Lion Head column, full of pride and vanity, the Fern column, soft and tranquil and the exquisite Goddess Athena with all her beauty and wonder. Perry Bird Pickets reintroduced these styles and many more back in the late 1970's and we have re-awakened the community to the beauty of the past.

VERANDAH POSTS

Perry Bird Pickets manufacture beautifully hand turned and routed verandah posts. Available in more than 14 standard designs. Our verandah posts are available from 100mm to 150mm in diameter and in lengths from 2.4 and up to 4.2 metres. Our posts are made to order, therefore the turned section can be made to the desired measurements. We can match any verandah posts to sample and also offer the added benefit of being able to turn a post simply by producing a photograph. Or be creative and design your own special post, the possibilities are infinite.

BARGE TRIMS

We manufacture barge trim in 10 standard designs in western red cedar. We can also supply designs made to specific styles.

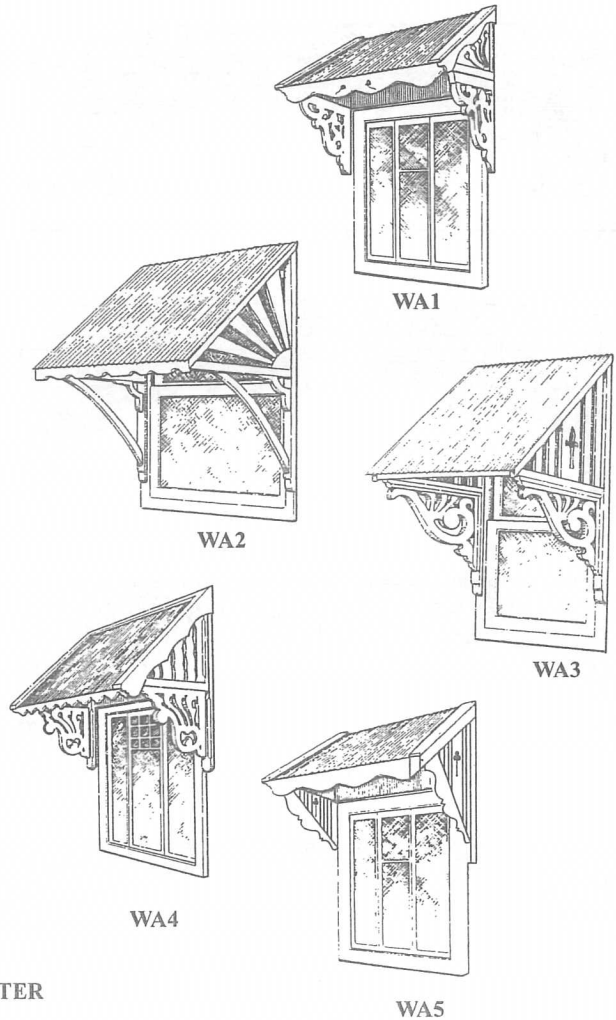

RAFTERS

We manufacture rafters to suit all styles of verandahs from bullnose to concave and convex. All rafters are made to your specification. We also supply roofing iron in colourbond, zincalume and galvanize, all of which can be curved to the desired radii.

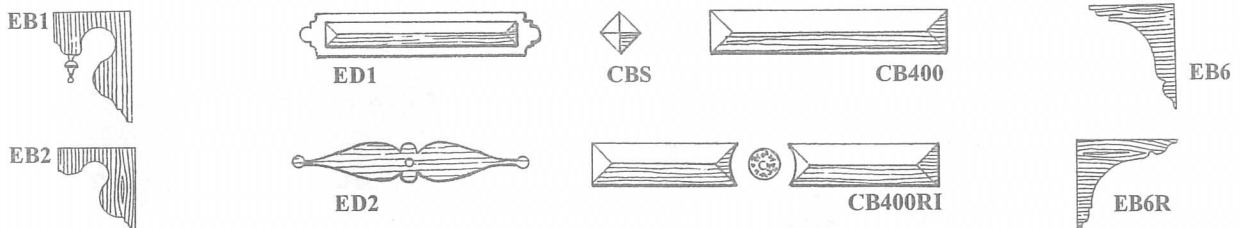

WINDOW AWNINGS

Perry Bird Pickets manufacture authentic period style window awnings, supplied in kit form or fully assembled. Alternatively we can fully install the awnings for you. The side brackets are available in numerous designs.

EAVE BRACKETS AND DECORATIONS

Pictured below are various ornamental decorations to be used beneath the eave line.

PENDANTS AND VERANDAH POST CAPITALS

Cast iron pendants are used to obscure any gaps between lacework. Should there be a length of lacework that has been cut, to enable it to fit into a given area a pendant should be hung at the point to conceal a joint. Verandah post capitals are available to suit posts of 100mm to 125mm. Manufactured in cast iron they are finished in red oxide primer.
